

JITENDRA KUMAR

DEVOPS ENGINEER

PROFFESIONAL SUMMERY

Experienced Azure DevOps Engineer with a proven track record of implementing streamlined solutions. Proficient in deploying automation and infrastructure through code. Overall 9.9 years of experience, processing 4.3 years of Azure cloud industry experience, I am adept at using Prometheus, Grafana for real time Monitoring, alerting, enabling proactive performance management and troubleshooting and Microsoft Azure, Terraform(IaC) and CI/CD pipelines with Git/GitHub, Azure Repos, to streamline infrastructure management. My skills in minimizing downtime and optimizing system performance have consistently contributed to successful project outcomes.

EDUCATION

Diploma In Civil Engineering
IASE University Rajasthan
2013

SKILLS

- Linux/Window
- Azure Cloud
- Terraform (IaC)
- Azure DevOps (CI/CD)
- YAML
- PowerShell Script
- Prometheus
- Grafana
- Docker
- K8s

LANGUAGE

- Hindi
- English

Work Experiance

Reliance Industries LTD. - DevOps Engineer

09/2023 - Present

Expert in leveraging Terraform to automate the provisioning and management of cloud infrastructure on Azure, ensuring deployments are consistent, repeatable, and scalable using Infrastructure as Code (IaC) principles. Proficient in implementing Prometheus for real-time monitoring and alerting, enhancing system reliability and visibility. Skilled in configuring Grafana dashboards to visualize critical metrics, enabling proactive performance management and troubleshooting. Proficient in integrating Terraform scripts into CI/CD pipelines with tools such as Azure DevOps, facilitating automated and efficient deployment processes within Azure environments. SaaS Application Management- Experienced in deploying and managing SaaS solutions within cloud environments, Adept at applying security best practices within Terraform configurations to protect cloud environments. Uses Azure's security features and compliance guidelines to enhance infrastructure security and address potential vulnerabilities.

Quess Corp Limited - DevOps Engineer

07/2022 - 08/2023

Using Terraform to automate the provisioning and management of cloud infrastructure on Azure, ensuring deployments are consistent, repeatable, and scalable using Infrastructure as Code (IaC) principles. Proficient in integrating Terraform scripts into CI/CD pipelines with tools such as Azure DevOps, facilitating automated and efficient deployment processes within Azure environments. SaaS Application Management- Experienced in deploying and managing SaaS solutions within cloud environments, Adept at applying security best practices within Terraform configurations to protect cloud environments. Uses Azure's security features and compliance guidelines to enhance infrastructure security and address potential vulnerabilities. Focused on enhancing system performance through effective infrastructure management and automation.

Retrofit Technology Pvt Ltd - DevOps Engineer

05/2021 - 07/2022

Automated Azure infrastructure provisioning and management using Terraform with IaC principles. Designed and implemented CI/CD pipelines in Azure DevOps for seamless deployments. Applied security best practices and Azure compliance features in all infrastructure configurations. Optimized deployment processes to ensure scalability, consistency, and reliability across environments. Collaborated with development teams to establish standardized automation workflows. Ensured robust cloud governance by integrating policies and access controls within deployments.

08/2015 - 02/2021

Kutumbh Care Pvt. Ltd. - IT Support Engineer

Provided technical support for hardware, software, and network issues. Installed, configured, and maintained workstations, printers, and peripherals. Managed user accounts, permissions, and access on internal systems. Troubleshot Windows OS, Microsoft Office, and common software problems. Assisted in network setup, VPNs, and ensured minimal downtime.
